### Introduction

Welcome to Auction #28.

Our sale has a wide range of with several exciting new discoveries. A remarkable collection of Tobago, Trinidad and Tobago has been off the market since the mid 1970s and was recently rediscovered. This collection was a joy to break down with lovely mint multiples, errors, specimens and covers. Another amazing discovery is the SOUGHTON Canadian squared circle collection that was started in the 1960s and contains many of the original listings of ERD and LRD dates. The first part of the Ken Lemke collection of George VI stamps and covers is presented here. Additional stamps and covers from the Earl Palmer Boer War collection will excite collectors with commando, occupation and POW covers. A superb group of Canadian stamps includes the 6c Caricature printed on the gum side, the 1c Centennial printed on the gum side, imperf pairs of the Scroll issue, excellent plate blocks and more. A collection of US full sheets rounds out the US portion. Part one of a massive dealer stock is represented throughout both the worldwide and Commonwealth sections. Careful lotting revealed a Mauritius #3 which was tucked into an old Scott International album (CV \$18,000) which has been off the market since 2000. Excellent forgery collections are offered, along with an extensive Netherlands collection, and so much more. We look forward to hosting you in our new office venue. The one drawback of our location is parking can be difficult but there is ample street parking and nearby parking at Victoria Park and even Dundurn Castle. Priority parking will be reserved for elderly or infirm customers. Just call ahead and we will reserve a spot for you.

Sincerely,  
Bill Longley

### Canada Postal History - Stampless to Numeral Issue

|     |   |   |       |
|-----|---|---|-------|
| 350 |  | 1832 Hamilton 1829 type EARLIEST RECORDED DATE (MR 29 32) on SFL dateline "Saltfleet 28th March 1832", to Chippawa, rated "1/2" collect. The enclosed letter is from Edmund Richie, the postmaster of Hamilton. An important showpiece for any Hamilton collection.   | \$200 |
| 351 |  | 1843, 1844 pair of SFL relating to 2 1/2% exchange surcharge, the first 1843 Hamilton, UC (DE 28) to New York, rated "Paid", "4 1/2"d to border, and "25"c US converted to "1/3 1/2" being 25c PLUS 2.5% exchange surcharge, for total of 1/8 Cy prepaid. The second cover 1844 Hamilton (JAN 13) to New York rated in the same manner. The 2.5% exchange surcharge was a short lived post office fee between May 17, 1842 and Dec 27, 1843 to cover the cost of the border postmaster's expense of converting and remitting postal monies to their US crossborder postmasters. The Canadian postmaster Stayner issued a circular Dec 27 cancelling the 2.5% exchange surcharge so the postmaster would not be aware of the change, but most certainly by the time the second cover was sent. So the first cover was technically overcharged 1/2d for the small period of time it took to receive the notice, but the second one was most likely deliberate overcharging of postage. Ex Steinhart | \$300 |

| 352 |     | 1858 folded letter Goderich, UC (Aug 8 58) to Paris, France, rated “10d” Cy and “8d Stg” in black collect, via Cunard “Europa” which collided with the “Arabia” and returned to Newfoundland. The letter was transferred to the “Persia”, via England, then France, Anglo-French accountancy hs “2F62c”. Reverse with black mourning stripe on paper’s edge, Hamilton, UC, London, GB and multiple French bs, also small, red boxed “2e31” and black boxed “2/c”. While the accountancy handstamp is rare, this is reportedly only the second example of the Hamilton grid “16” on cover. | \$500 |
| 353 |    | 1852 #1 3d laid paper, full to just clear margins with smudged target cancel on folded letter, internal dateline “Detroit 27 Nov 1852”, bootlegged cover carried across the river privately and mailed at Windsor, CW (Nov 28 1852) to Amherstburg, CW. The stamp has a gentle file fold, aligning with the file fold in the letter, horizontally at top.   | \$500 |
| 354 |    | 1856 Hamilton, UC (JY 12 1856) with #4(2) 3d Beaver, both clear to huge margins, on cover to Philadelphia, PA, USA, paying 6d/10¢ cross border rate. Docketing notes at left.   | \$300 |
| 355 |    | 1857 23 segment cork ties #4 3d Beaver (cut into design to showing next stamp above) ties stamp on cover with Hamilton (JA 21 1857) with UC excised, REGISTERED to Guelph. The stamp show re-entry in lower right oval frameline and the 1d registry fee is paid in cash. A lovely example of the altered Hamilton datestamp (UC removed). Ex Cloutier.   | \$300 |
| 356 |    | 1859 #12 3d Beaver, perforated tied by target cancel on cover from Waterdown, UC (AP 13 59) to Sandwich, UC bs (AP 14 1859) with second Waterdown bs (AP 13) and Windsor transit (AP 14). Late 1859 period, as the Cent period started July 1, 1859. A lovely example from a known correspondence.  | \$700 |
| 357 |    | 1867 Hamilton (AU 7 1867) ties #14 1¢ Rose on printed circular to Guelph. Not only is the circular amazingly clean and attractive with the unusual use of the dater to cancel the stamp, but the three page circular has a COLOUR printed header for McKenzie & MacKay wool and flax brokers. This is the first COLOUR internal printed circular that I can recall seeing.  | \$150 |
| 358 |  | 1860-1867 Five 5c Beaver covers incl 1860 Pakenham, CW to Arnprior from an apple cider merchant describing his press, process and quality of goods, states he won provincial exhibition in Hamilton in previous year etc.   | \$100 |
| 359 |  | 1862 #19 17c Cartier tied by Hamilton datestamp (JA 20 1862) on cover to Sunderland, England paying 17c Cunard like rate via New York. Interestingly, the Hamilton datestamp has the “UC” for Upper Canada excised, and is used to cancel the stamp (most unusual) as well. The postage was paid and charged “Paid Box 35”.   | \$300 |

| 373 |    | 1899 #78 3¢ Numeral bisect tied by Upper Stewiacke, NS (JA 7 99) along with #74 1/2¢ Numeral to Truro, NS bs. Although not tied across the bisect, the rate is 2¢ paying the newly enacted 2¢ rate (Jan 1 1899). It is likely mailed from the dealer Cox, and occurs at the same time as the Port Hood bisect. I would suggest that he tried to invent covers for sale like the Port Hood example. There are documented instances of postmasters in Nova Scotia being reprimanded for hording stamps for personal sale. | \$300 |
